Email marketing

Email marketing is a form of direct marketing which uses electronic mail as a means of communicating commercial or fundraising messages to an audience. In its broadest sense, every e-mail sent to a potential or current customer could be considered e-mail marketing.

How does it work?

Advertisers prepare their promotional message of the good or service that's on offer. The advertiser then determines which audience to target through the targeting tools made available i.e Age, Gender, Location and House Hold Income. From here the email campaign is sent out to the recipients personal email accounts. All Campaigns are tracked to determine the Open vs Click through rates achieved thus allowing an exact ROI analysis.

Email campaign features

- A dedicated email message (Full Page)
- CPC and CPM Campaign Structure
- 99% delivery rate in member's personal inbox
- 7 day turn around time to deliver campaign results
- We guarantee a 25% return on all email campaigns
- We cater for sends up to 750,000 members (100% Australian)
- Email design services are available (\$495 per creative)
